Re : Fuel & Air Saver

Date : November 18, 2006

Dear Peter,

I recently installed your gas unit in my 2003 Chevrolet 1500HD truck. It is equipped with a 6.0 liter V-8 and equipped with the factory tow package (4.10 rear end ratio). Installed at 44,215.

One word...WOW!

I immediately found that the truck responded with better acceleration. The big news was the increase in mileage. I went from 9.8 mpg to 12.5 mpg. That's an amazing 27% increase in mileage! I noticed the increase by my third tank of fuel. That's after 900 miles! My Truck now has 47,814 miles and the unit is still holding steady at 12.5 mpg. That's a savings of nearly \$70.00 per month.

I can't thank you enough. A new true believer

Sincerely

Richard Garnica
